## 243NQ...(R) SERIES

SCHOTTKY RECTIFIER

240 Amp

### Major Ratings and Characteristics

| Characteristics                     | 243NQ...   | Units      |
|-------------------------------------|------------|------------|
| $I_{F(AV)}$ Rectangular waveform    | 240        | A          |
| $V_{RRM}$ range                     | 80 to 100  | V          |
| $I_{FSM}$ @ $t_p = 5 \mu s$ sine    | 25,500     | A          |
| $V_F$ @ 240Apk, $T_J = 125^\circ C$ | 0.72       | V          |
| $T_J$ range                         | -55 to 175 | $^\circ C$ |

### Description/Features

The 243NQ high current Schottky rectifier module series has been optimized for low reverse leakage at high temperature. The proprietary barrier technology allows for reliable operation up to  $175^\circ C$  junction temperature. Typical applications are in switching power supplies, converters, free-wheeling diodes, and reverse battery protection.

- $175^\circ C$   $T_J$  operation
- Unique high power, Half-Pak module
- Replaces four parallel DO-5's
- Easier to mount and lower profile than DO-5's
- High purity, high temperature epoxy encapsulation for enhanced mechanical strength and moisture resistance
- Low forward voltage drop
- High frequency operation
- Guard ring for enhanced ruggedness and long term reliability
